

Overview

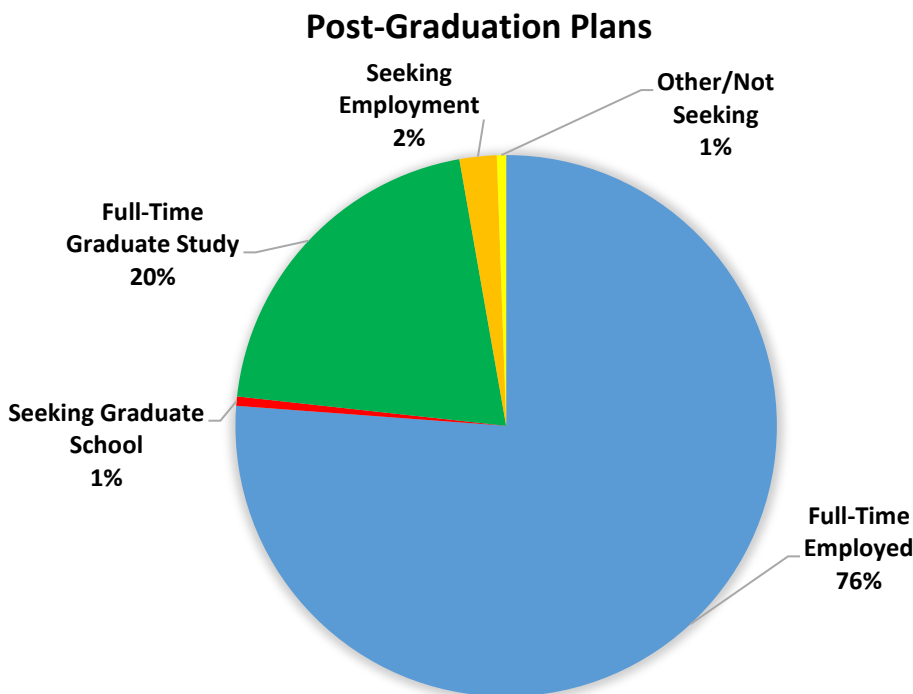

Each year Career Services surveys the School of Engineering & Applied Science (SEAS) graduating class to gather information about their post-graduation plans. This report summarizes the responses from August and December 2015, May 2016 Bachelor of Science in Engineering (BSE) and Bachelor of Applied Science (BAS) degree recipients. The school awarded 405 undergraduate degrees. Career Services received 361 responses, representing an 89.1% response rate.

At the time of the survey, there was a 7% increase over last year in the number of students pursuing full-time graduate study, while the number of students accepting full-time employment decreased slightly, by 2%. As in the previous year, 2% of the students indicated they were seeking employment and 1% were seeking graduate school admission. Consulting, Financial Services, and Manufacturing are by far the most represented industries, at 30, 29, and 27% representation, respectively. Another 7% of full-time employed students entered government work.

The overall average salary of the employed respondents rose by 5.7% to \$87,571 and 114 students reported receiving a sign-on bonus. As expected, engineers have the highest reported average starting salary of all Bachelor's level students at Penn and a higher average salary than the national average for engineers. The average salary of Penn Engineering majors (not including computer science related) was \$79,697 compared to the national average of \$66,121. Graduates in computer related majors at Penn averaged \$101,267 compared to the national average of \$71,534 for graduates with computer related degrees. The national averages are provided by the National Association of Colleges and Employers, *NACE Salary Survey, Fall 2016 Executive Summary*.

Of the 181 students reporting the date they received their job offer, 97% of them had their full-time positions by graduation. Full-time employed engineers had an average of two job offers, and 57% accepted positions in the Mid-Atlantic or Northeast regions, the same as last year. The leading areas of study for students going to graduate school were 72% in engineering and 19% in medicine.

Rosette Pyne, Senior Associate Director
Mike Klein, Graduate Assistant
January 2017

METHODOLOGY

Engineering students graduating with either a BAS or BSE degree in August 2015, December 2015 and May 2016 responded to several email requests to complete the Career Plans Survey on line between April and November 2016. The SEAS Academic Programs Office sent an email to the graduating students asking them to complete the survey as part of the graduation process. In November, a friendly request (email and phone) was made to students who had not responded to earlier requests or who had previously indicated they were still seeking employment or graduate school admission. A search of LinkedIn was accessed to find or identify any updated information from those who had not responded to all requests, and this information was used, if subsequent follow-up was verified by the graduates or the department. Department Coordinators were contacted to acquire post-graduate data on all the remaining non-respondents.

University of Pennsylvania, Philadelphia, PA, MSE, Mechanical Engineering & Applied Mechanics
University of Pennsylvania, Philadelphia, PA, MSE, Mechanical Engineering & Applied Mechanics
University of Pennsylvania, Philadelphia, PA, MSE, Mechanical Engineering & Applied Mechanics
University of Pennsylvania, Philadelphia, PA, MSE, Robotics
University of Pennsylvania, Philadelphia, PA, MSE, Robotics
University of Pennsylvania, Philadelphia, PA, MSE, Systems Engineering

Networked and Social Systems Engineering

University of Pennsylvania, Philadelphia, PA, MSE, Computer and Information Science
University of Washington, Seattle, WA, PhD, Computer Science

Systems Engineering

University of Pennsylvania, Philadelphia, PA, MSE, Systems Engineering
University of Pennsylvania, Philadelphia, PA, MSE, Systems Engineering

ENGINEERING DUAL DEGREE (BAS/BSE & MSE)

Bioengineering

Icahn School of Medicine at Mount Sinai, New York, NY, MD/PhD, Translational Molecular Imaging
University of Miami Leonard M. Miller School of Medicine, Miami, FL, Cancer Biology
University of Pennsylvania, Philadelphia, PA, DMD

Mechanical Engineering and Applied Mechanics

University of Pennsylvania, Philadelphia, PA, MSE, Integrated Product Design

ENGINEERING & CAS

Chemical and Biomolecular Engineering

Harvard University, Cambridge, MA, PhD, Theoretical & Computational Chemistry
Stanford University, Palo Alto, CA, PhD, Chemical Engineering

Materials Science and Engineering

Imperial College, London, UK, Post-bac, Sustainable Energy Futures
University of Oxford, Oxford, UK, MSc, Materials Science

ENGINEERING & WH

Applied Science – Biomedical Science

Cambridge University, Cambridge, UK, MA, Technology Policy

Applied Science – Computer Science

Harvard University, Cambridge, MA, MA, Computer Science

Chemical and Biomolecular Engineering

Columbia University, New York, NY, PhD, Chemical Engineering

Computer Science

Massachusetts Institute of Technology, Cambridge, MA, PhD, Computer Science (Machine Learning)

Mechanical Engineering and Applied Mechanics

University of Pennsylvania, Philadelphia, PA, MSE, Robotics

Systems Science and Engineering

University of Pennsylvania, Philadelphia, PA, MSE, Systems Engineering
